I-5: CAPITOL HIGHWAY – WILLAMETTE RIVER BRIDGE PRESERVATION PROJECT

OREGON DEPARTMENT OF TRANSPORTATION (ODOT)

KEY PROJECT HIGHLIGHTS

- $31 million two-phase project
- 11 miles of urban freeway pavement rehabilitation
- Two new auxiliary lanes
- New 3,800-foot long soundwall
- Multiple upgrades including shoulder widening, barrier/guardrail replacement, bridge joint repair, trenchless storm sewer repair and durable striping
- ARRA-funded signage upgrades, ramp paving, cable barrier and landscaping
- Water quality swales, bioslopes, vegetated filter strips, pervious pavement and undeground detention facilities to address stormwater management requirements
- Won Asphalt Pavement Association of Oregon FIRST PLACE PAVING AWARD in 2007 for "State Highway - High Volume" category for the project's first phase
